The amendment received 5 October 2007 has been made of record. Claims 1, 3-5, 7-8 and 10-12 are pending.

Claim 3 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 3 has been amended to recite "about 35% to about 50% of an alkyd stabilized acrylic dispersion". Applicants have pointed to page 14 of the specification for support of this limitation. Page 14, however, recites percentages for the resin and not the dispersion. Therefore, this limitation is seen as new matter..

Claims 1, 4, 5, 7, 8 and 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakasawa et al in view of EP '503 and Wakimoto et al.

This rejection is maintained for reasons of record. Applicants have argued that none of the prior art documents disclose the specific alkyd stabilized acrylic dispersion claimed instantly. It appears to the examiner that the EP document does just that and provides motivation for its use.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
